www.theacp.org.uk

Shape of Training Background

- **View that current medical training not fit for purpose.**
- **Inflexible medical workforce- unable to meet challenges of medical care in 21st century**
- **(Chaos in acute general medicine)**

@acpuk

Letter from ShOT to JRCPTB March 2017

“Turning to the remaining specialties of palliative medicine, neurology and medical oncology. The UKSTSG were not persuaded that those three specialties were significantly different from those in Group 1 who had accepted that they should have the skills to contribute to the acute unselected take. Consequently we recommend that these specialities are dealt with in the same or a similar way to those in group one”.

Further Actions

Considerable internal discussion
