Burnout and Resilience

Oncology is a rewarding profession but caring for patients with cancer can also be demanding and stressful

ESMO survey in European young oncologists >70% showed signs of burnout. Similar data for US. Implications for already stretched workforce

Susie Banerjee (Royal Marsden) leads ESMO Resilience Taskforce to look at measures and interventions to help prevent and tackle burnout and a member of the ACP Exec

Materials to support individual and organisational solutions to be available on ACP website

Recent activities and achievements

- National survey of trainees, published in May 2020
- Ongoing development of trainee materials for ACP website
- Closer collaboration with ESMO
- Launch of monthly teaching webinars (starting Oct 2020), to be recorded and published on EBN platform

UK
Chemotherapy
Board (UKCB) –
Represented by
Ruth Board and
Janine Mansi

UK Chemotherapy Board Conference, 26th November, London - Annual conference led and hosted by the UKCB <http://www.commissioningcancer.co.uk/>

Professor Gordon Cook (RCPATH) currently Chair of the UKCB, Janine Mansi represents the ACP and Ruth Board represents RCP

New initiatives:

- Medically related osteonecrosis of the jaw (MRONJ) [guidance](#)
- [DPD testing policy](#) in liaison with NHSE Genomics
- Outpatient mx of glycaemic control – in final stages
- Low risk neutropenic sepsis pathway in liaison with AO
- UKCB website - <https://www.ukchemotherapyboard.org/>

Ongoing work or previous guidance:

- Chemotherapy [e training modules](#) have been fully supported by the UKCB
- [Immunotherapy](#) – best practice – led/supported by Ruth Board
- Patient held chemotherapy diaries – updated version. Supported by and available from [CRUK](#)
- National regimen-specific consent forms – progressing well. Ongoing funding through CRUK. All solid tumour regimens available except sarcoma hosted on [CRUK website](#)
- ACP/UKCB support for a UKONS RAG triage tool for acute oncology emergencies: <http://www.ukons.org/acute-oncology-forum>

Ongoing liaisons:

- CRG
- SACT PHE

Curriculum and Shape of Training Update

Dr Jackie Newby
Chair, Medical Oncology SAC

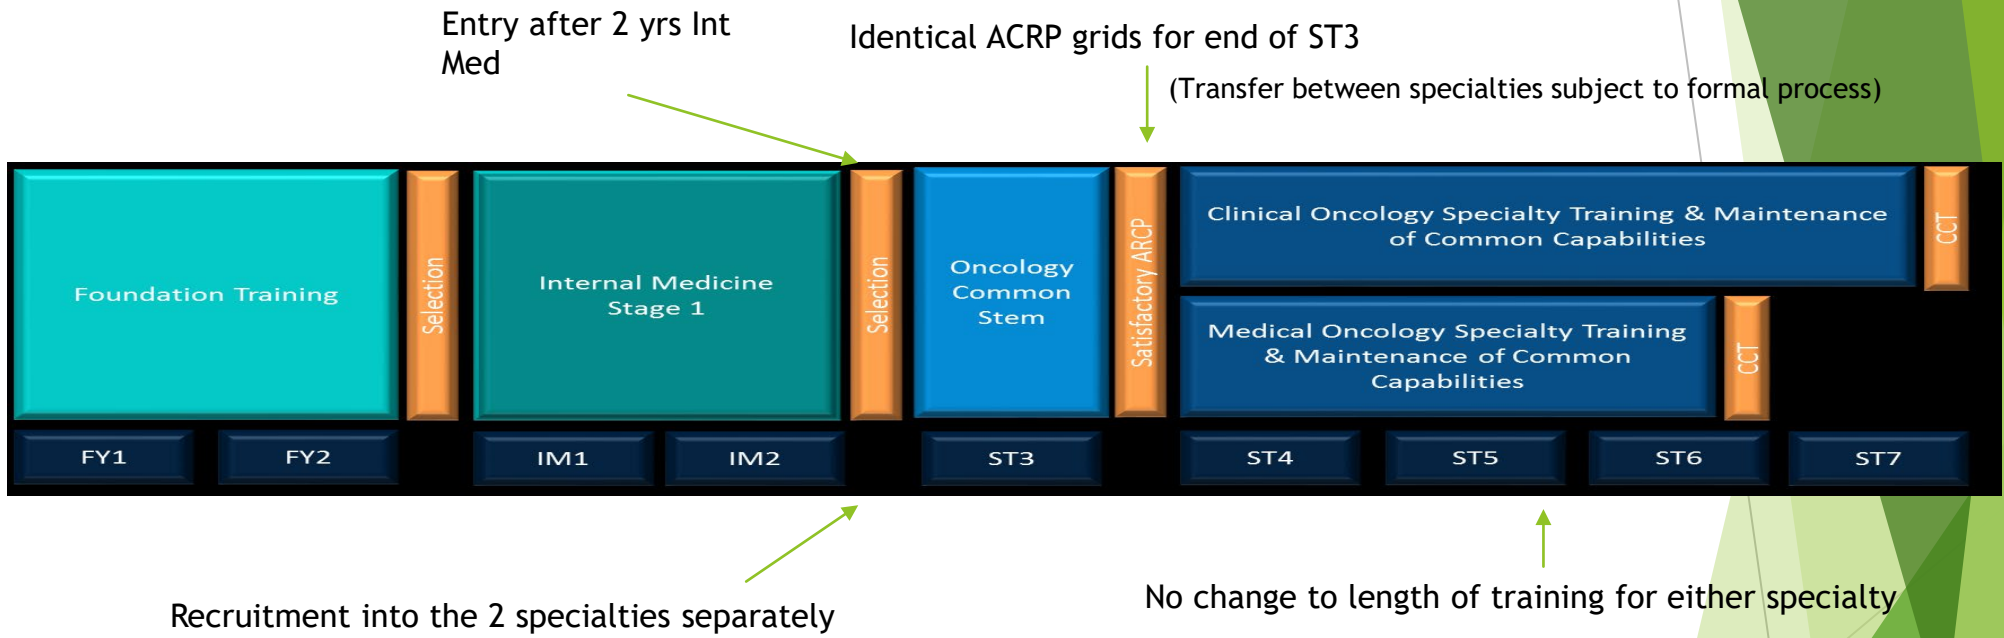

Current situation

- ▶ **Curriculum Proposals for Medical and Clinical Oncology**
 - ▶ Stage 1 approval issued GMC April 2019
 - ▶ Overarching proposal
 - ▶ Group 2 model for both with contribution to acute unscheduled care via training in Acute Oncology
 - ▶ Common first year of training between the 2 specialties
 - ▶ **Stage 2 approval issued (provisional) July 2020**
 - ▶ Full Curriculum Document and submission
 - ▶ Awaiting final approval pending a couple of, hopefully minor issues addressed August 2020
 - ▶ **Implementation date August 2021**
 - ▶ Any new ST3
 - ▶ Anyone >12m from CCT will transition

Key elements of new curricula

- ▶ Dividing the high-level learning outcomes (known as capabilities in practice, or CiPs) of the curricula into 3 groups:
 - ▶ Generic (common to all specialties);
 - ▶ Shared/Common Oncology (same for Medical and Clinical Oncology) and
 - ▶ Medical or Clinical Oncology specific (unique to specialty)
- ▶ Complete alignment of the ARCP assessment grids for the end of the common ST3 year to facilitate transfer between the specialties
- ▶ Complete alignment of the shared learning outcome areas of the curricula throughout training
- ▶ An explicit commitment to training in Acute Oncology for all trainees

Key elements of new curricula

During the pandemic the ACP has contributed to and advised on guidance documents.

A repository of relevant key documents has been collated and established on the [ACP website](#)
