

MEET THE SPEAKERS

Dr Michael Flynn, Consultant Medical Oncologist,
University College London Hospitals NHS
Foundation Trust

When: Thursday 16th April, 2pm

Session: The Future of Oncology – new and
emerging drugs

Topic: Future Horizons in ADCs

Dr Flynn is a Medical Oncology Consultant at UCLH with an interest in gynaecological cancer and new drug development.

He completed his PhD in antibody drug conjugate translational development at University College London and his specialist training at the Royal Marsden Hospital. He now leads the BASKET studies clinic at UCLH.
