

MEET THE SPEAKERS

Dr Sara Lightowlers, Specialist Registrar in Clinical Oncology, North West Anglia Foundation Trust

When: Thursday 16th April, 4pm

Session: Future of Oncology- securing a sustainable future

Topic: Introduction to new sustainability CIPs in the Oncology Curriculum

Dr Sara Lightowlers is a Specialty Registrar in Clinical Oncology in the East of England. She holds a PhD in breast radiotherapy and has current research interests at the intersection of cancer care, radiotherapy, and environmental sustainability, alongside national roles focused on sustainable healthcare.

She is a co-author of the Green Radiotherapy Framework, a national tool supporting decarbonisation of radiotherapy services, and played a leading role in the introduction of sustainability considerations into the Clinical and Medical Oncology curricula.
